From the developer that brought you the early classic fIOW and now Okami comes this beautiful game that has a beautiful story. A young girl, Moetel, is on a journey to discover her true place in the world and to obtain her heart's desire. The game is filled with colorful characters and a unique non-linear gameplay. Awesome game, this was my favorite on the console, it has a great story and it really shows the gameplay from the viewpoint of the monkeys. I also liked it when the monkey, Zagi, attacked

the fairy, Moetel, and for the first time in history, we were able to kill a fairy, and then he lost his memory. The controls are unique, and I like the ability to do something when I want. There are a lot of small parts to interact with, so if you don't pay attention you can get stuck or miss something important. Overall a great game, and I would recommend it to anyone. I hope you like my review. For the love of God, I HATE that this game has two different endings, it's so annoying. The story itself is nice, but the ending was crap. I wish the game wasn't so dependent on luck. Also, the game is plagued by bugs. I have a few games with glitches, but this one has glitches more than anything else I've played. For some reason, I haven't been able to play this game for 2 months. I was on a power trip and just needed to pass time before a paper was due. I could finally return to it today, and the game has really changed. It's the most beautiful game I've ever played. The story is so full of life, the music is simply amazing and the graphics are something that I can't even describe, it's amazing. It's probably the best game I've ever played. Go play it, you won't regret it. Oct 24, 2006n Uploaded by InFar45 An easy game with good graphics. I really didn't like the story or the gameplay, and the soundtrack is all over the place. There are a few glitches in the game but they aren't really that annoying. Overall this game is ok but I wouldn't recommend it. Oct 26, 2005n Uploaded by InFar45 Pretty easy game and the game is really short. It is enjoyable to play but I wouldn't recommend it. There's 82157476af
